

CODE EXERCISE

RESPONSIVE DESIGN WITH CSS

Download the files at <https://bit.ly/CSSAircraft>.

Use the text file and images to create a multicolumn layout that displays each aircraft's name, image and description in a separate logical division. However, for screens less than 800px wide, using the techniques demonstrated in the Responsive Design video, collapse the layout to a single column layout.

SUBMITTING EXERCISES

To earn certification all exercises must be submitted and accepted.

1) When you've completed all of the HTML exercises, please zip them into a single file and submit to our Dropbox at <http://bit.ly/CWDP2324>.

2) Next, fill out the certification completion form at <https://forms.gle/5EiUGCM6dGdIF2Py6>.

Remember, that all of your exercises for each module should be included in a separate zip file.

GETTING HELP

We always want to ensure that your questions are answered. There are a number of ways to get in touch.

1) We operate a lively Discord server. Join us at <https://discord.gg/tgxX2fCrv5> and you can ask your question on Discord. Mark and our team of instructional assistants monitor this Discord and answer questions ASAP.

2) This certification program is offered on several platforms. Most platforms have a Q & A section where you can post questions. We monitor these and respond as quickly as we can.

3) You may use our question hotline email at questions@dollar.designschool.com.

Remember to always to include which section your question is from and send any code you're working on!
